

PS300 general description

The PS300 is a luxurious independent submarine designed for the leisure and research and like appendix of a MEGA yacht.

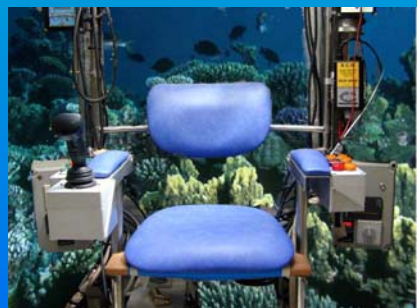

It offers to the 2 passengers accompanied by the pilot a complete sight on fauna and the flora during submarine expeditions.

The PS300 is conceived with a safety coefficient of 3.

Good stability on surface, floatability and a very high freeboard enable the passengers to be transferred directly on the dive site, with a maximum sea state of three or 4

Price ex Work France: 390 000 €

PS300 © ®™ Three Seats Underwatercraft

Main data on the PS300

Length	3890 mm
Width	2170 mm
Height	2550 mm
Draught	1825 mm
Freeboard of the hatch	600 mm
Weight in Air	5150 kg
Drop weight	200 kg
Crew & equipment weight	300 kg
Half full speed autonomy	4 hours
Emergency life support	72 hours
Max forward speed	3 knots
Max towing speed	5 knots
Max sea state for towing	3
Operating depth	100 meters
